CASE STUDY Villa Honegg Hotel and Spa

When award winning design company, Jestico + Whiles was commissioned to specify the interior of the luxury five star Villa Honegg Hotel at Ennetbürgen, Switzerland, the company set out to renew the guest experience in a way that would reflect the hotel's striking mountain setting. Combining contemporary design with the heritage of the beautiful period building, the inspiration found in the panoramic lake and mountain views from each bedroom has been used to create stunning boutique bathrooms for each guest, bringing an element of the hotel's grand setting inside. Jestico + Whiles worked alongside Samuel

Heath, using the dedicated service for designers and architects provided through our London showroom at the Design Centre Chelsea Harbour. The service offers one-to-one support for any size specification project, from initial product selection through to project management. The team from Samuel Heath worked with the interior design company to specify the guest bathrooms and spa areas. Fairfield taps and showers were selected for their classic motifs and rich character. Samuel Heath Fairfield showers are also featured in the spa, creating synergy between the wet room spaces.
